

# 4th of July/Winter's Holiday

Peaches in the summertime apples in the fall  
Come down from the mountainside it's time to feed them all

*[chorus]*

How will we provide  
When the animals go away  
The final apple falls  
Come winter's holiday

Everything is equal now the leaves have turned to gold  
Farewell to you sweet summertime come harvest we'll have grown

What's you gonna do  
When the cold front moves in  
The snow begins to fall  
And winter comes again

Seven sisters shining in the nighttime sky  
Fire's stoked and burning daytime passes by

Who you gonna love  
When darkness settles in  
The wind begins to howl  
And winter comes again

How will we provide  
When the animals go away  
The light begins to fade  
Come winter's holiday
